

**Hi everyone**

This is a game from my childhood which I absolutely enjoyed playing with my family and friends. I have passed this game onto my children and we are now having hours of fun throughout these difficult times. You can play this game indoors, outdoor and of course via FACE TIME. It is played with two or more players. It works, trust me. You will have a great time.

This is just one example of the topics you can have. You can make it your own. Other topics could be objects, sport, cars, songs... or to make it more educational you could have nouns, verbs, adjectives, adverbs, conjunctions.

## Instructions

Each player needs an A4 sheet of paper and a pen. Every player will be required to draw a table ( see below) . The game starts by one of the players reciting the alphabet ( in their head) . Another player will then say 'STOP' and whatever letter the player reciting the alphabet has stopped will be used to complete each topic starting with the given letter. A time of 1 minute should be set to complete all the topics. Take turns in reciting the alphabet and saying 'STOP'.

## Points system

5 points - if two or more players have the same answer

10 points - if each player has a different answer

15 points - if only one player has an answer for a particular topic
