## Garret Morgan

Garret Morgan (1877-1963) was born in Kentucky, America. He was the son of former slaves and only received a primary education. He was also born during a time when black people were not treated fairly. Despite this, he invented many things, including the modern 3 position electric traffic light. He was one of America's most successful black inventors.

In Brandon Nursery we have been learning about a famous black inventor called Garret Morgan.

We made our own set of traffic lights.  
We cut red, yellow and green paper from  
pictures in magazines.
